Theme – “Time to Remember. Time to act.”

Worldwide International overdose awareness day is celebrated on 31 of August every year by the people, government organizations and other related professions making awareness regarding overdose as well as it's complications and treatment with rehabilitative aspects for it.

The objective of this day is to raise the awareness about the overdose. Under the guidance of Dr. Madhuri Shelke (Principal INER, Pune) I have conducted the seminar on the occasion of International overdose awareness day.

The goal of conducting the programme was to create the awareness and to improve the knowledge of the group regarding overdose. The importance of prevent this overdose.

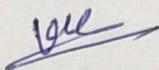

The session was very interactive along with discussion regarding the topic and resolution of their queries.

At the end of the session, the effectiveness of the seminar was assessed through the question answers and the organization of **speech competition on "Overdose awareness days"** for the students.
