THEME: “Vitiligo: Looking into the Future”

In the every year of the June, is celebrated as “World Vitiligo Day.” This celebration aims to educate both men and women regarding their skin and skin health and its significance. Vitiligo patches over the skin the myths about this skin patches spread the discrimination about those people who was suffering from this disorder, there is a need to spread the knowledge among community peoples about Vitiligo. Types of vitiligo and its Causes, Sign and symptoms and its Prevention also what diet have they require to avoid in their dietary pattern and which diet they need to add in their dietary pattern.

Most of the causative factors including like Stress, Dysfunction of the central nervous system, Autoimmune Diseases, Worm invasions, Intoxication, Sunburn, Iron And Copper Deficiency, Chronic inflammatory processes, Chronic diseases of internal organs specially endocrine gland and sweat glands.

Therefore, heredity factors also could lead to issues affect our day-to-day life.

CENTRAL OBJECTIVES:

Many people are unaware of the causes of vitiligo, sign and symptoms, types of vitiligo and the diseases related to skin spread the discrimination among those suffering skin diseased people and they become a thrown out from community people. Injustice spread among this people through the community so we feel that as a health professional we have to try to sort out this injustice about this people in the community and aims to provide good kind of proper knowledge to the community people.

Name of the event: World Brain Tumor Day 2023

Organizer: Tilak Maharashtra Vidyapeeth

Venue: TMV, INER Pune

Date and time: 08.06.2023 at 03.00 pm-4.00 pm

Participants: First Semester & Second Semester B. Sc. Nursing students and ANM II yr

Speaker: Ms. Priyanka Sable

Theme : " Protect yourself keep away from stress"

Topic Addressed:

- Introduction to World Brain Tumor Day
- Importance to celebrate World Brain Tumor Day
- How to celebrate World Brain Tumor Day
- Awareness regarding Brain Tumor
- Poster Making competition for student

Under the guidance of Dr. Madhuri Shelke (Principal, INER, Pune) conducted the seminar on World Brain Tumor Day

The goal of program was to improve the knowledge of the students related brain tumors by celebrating World Brain Tumor Day. World Brain Tumour Day plays a vital role in addressing the global burden of brain tumors and striving for better outcomes for patients worldwide. World Brain Tumour Day is a significant global initiative dedicated to raising awareness about brain tumours and supporting those affected by this challenging condition. Brain tumours pose a complex and often life-altering journey for patients, their families, and caregivers. This special day serves as a platform to highlight the impact of brain tumours, share vital information, promote early detection, and inspire hope through advancements in research, treatment options, and support networks. At the beginning of the session, knowledge was assessed by asking various questions, and end with poster making competition

After the session, again questions were asked to the students to assess the effectiveness of Seminar.

The session was ended with vote of thanks by Ms. Priyanka Sable
