Speaker: Ms. Priyank Sable

Topic Addressed:

- Introduction to World Patient safety day
- Importance to celebrate World Patient safety day
- Pledge for doing medication safety
- Skit presentation by first year BSc N student on the theme

Theme: Medication Safety

Slogan : Medication without harm

Under the guidance of Dr. Madhuri Shelke (Principal, INER, Pune) conducted the seminar on World Patient safety day

The goal of program was to improve the knowledge of the students related patient safety by celebrating World Patient safety day. Its very important to make awareness among the student about patient safety as they are tomorrow health worker

At the beginning of the session, Introduction regarding the program was conducted by Ms. Priyanka Sable (clinical Instructor), including the theme of World Patient safety day i.e. "Medication safety" patient safety is first priority of health worker and medication safety must prevent by using right of drug administration after theme slogan of this year was enclosed – "Medication without harm" sometime medication error may happen so awareness regarding it was given to students

Knowledge was assessed by asking various questions like how will you give medication what aspect will you assess before giving any kind medication to patient, what are rights of drug administration this all question were asked and student give satisfactory answered

Then discuss how important is to maintain patient safety, if patient safety measured will not be followed then there is chance of getting hazardous situation to patient following point included in seminar

The global campaign reaffirms the objectives of the WHO Global Patient Safety Challenge: *Medication Without Harm* launched by WHO in 2017. The campaign calls on stakeholders to prioritize and take early action in key areas associated with significant patient harm due to unsafe medication practices. These include high-risk situations, transitions of care, polypharmacy (concurrent use of multiple medications) and look-alike, sound-alike medications. The campaign will provide a special focus on the implications of the COVID-19 pandemic for medication safety, considering the serious disruption in the provision of health services.

World Patient Safety Day is one of WHO's global public health days. It was established in 2019 by the Seventy-second World Health Assembly through the adoption of resolution WHA72.6 – "Global action on patient safety". Its objectives are to increase public awareness and engagement, enhance global understanding, and work towards global solidarity and action by Member States to enhance patient safety and reduce patient harm.

Objectives of World Patient Safety Day 2022:

1. RAISE global awareness of the high burden of medication-related harm due to medication errors and unsafe practices, and ADVOCATE urgent action to improve medication safety.
2. ENGAGE key stakeholders and partners in the efforts to prevent medication errors and reduce medication-related harm.
3. EMPOWER patients and families to be actively involved in the safe use of medication.
4. SCALE UP implementation of the WHO Global Patient Safety Challenge: *Medication Without Harm*.

Commemorating World Patient Safety Day 2022

To observe the day, WHO is organizing a series of webinars on medication safety and is producing a number of medication safety solutions and technical products in 2022. On and around 17 September 2022, WHO will organize a wide range of activities and host a global virtual event. Celebrations will include lighting up of Geneva's Jet d'Eau in orange colour. Member States and partners are invited to participate in the global campaign by pledging to

implement the WHO Global Patient Safety Challenge: *Medication Without Harm*, organizing activities, holding events and lighting up iconic monuments in orange in support of medication safety.

after the seminar pledge were took by our Vice Principal Madam Dr. Prof Perpetua Fernandes and all staff and student repeat the same the pledge is given by Consortium of Accredited Health care Organization (CAHO)

Following Pledge was taken

As a responsible healthcare worker, I pledge my support and commitment to the campaign "Medication Without Harm". I understand the consequences of harm to patients due to preventable medication errors, unsafe medication practices and my role in preventing them. I am also aware of my patients' role in medication safety. I will champion the cause of patient safety and will educate my patients on their role towards safe medication.

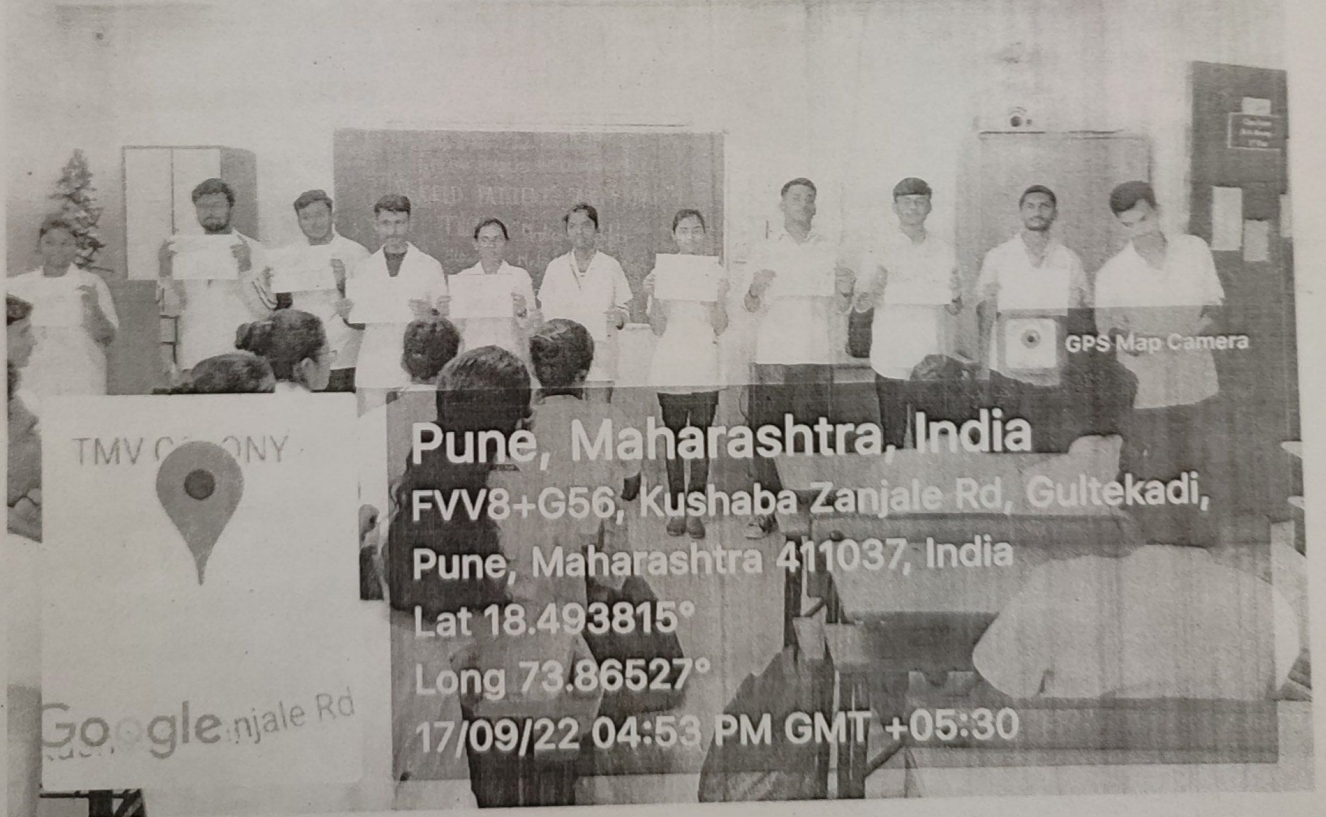

I will:

- Make sure proper medication history is taken and share with the clinical team
- Check patients own medicines brought by him at admission
- Be taking proper drug handover during shift changes and transition of patient care
- Verify medication orders for right dosage before administering at the right time
- Confirm patients' identification before administering medications
- Double check medicines while receiving from pharmacy
- Follow protocols for managing high risk medications and for like look-alike and sound-alike medicines
- Make sure of right dilutions and infusion rate
- Monitor patients during drug therapy to Identify and take measures in case of adverse events
- Make sure of proper documentation for drug administration
- Will follow the protocol of read back and confirmation for verbal orders
- Make sure of proper stocking and replacement of used drugs in emergency crash cart
- Provide proper education and counselling to patients
- Report any Adverse Drug Event (ADE) and be part of improving medication safety
