- After care of procedure on Sputum Collection

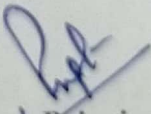

PURPOSES OF SPUTUM COLLECTION

- To confirm the diagnosis of disease.
- To assess the disease.
- To promote the health.
- To give as a symptomatic treatment.

Under the guidance of Dr. Madhuri Shelke (Principal TMV, INER, Pune) I have conducted Skill station on Sputum Collection. The goal of conducting the skill station was to increase the student's knowledge and skills to perform Sputum Collection.

The session was very interactive along with discussion regarding Sputum Collection. I have explained the articles needed for the procedure, steps of procedure, after care of articles and what are the nursing responsibility while collecting the sample.

At the end of the session, the effectiveness of the skill station was assessed through the question and answers and re-demonstration of Sputum Collection.
