**TILAK MAHARASHTRA VIDYAPEETH, INSTITUTE OF NURSING EDUCATION  
AND RESEARCH, GULTEKADI, PUNE**

---

**Name of the event:** World Blood Donor Day

**Organizer:** Tilak Maharashtra Vidyapeeth, Nursing Department

**Venue:** 3 rd Semester classroom

**Date and time:** 17/06/23 at 3.30 pm-4.30 pm

**Participants:** Third Semester B. Sc. Nursing students

**Speaker:** Ms.Radha Shinde

**Topic Addressed:**

- Introduction to World Blood Donor Day
- Importance to celebrate World Blood Donor Day
- Describe awareness about BloodDonor.
- Enlist prevention about blood disorders.

**Theme:** The theme for World Blood Donor Day 2024 is “20 Years of Celebrating Giving: Thank You Blood Donors!” This theme underscores two key aspects: Appreciation for Blood Donors: Over the past two decades, World Blood Donor Day has served as a platform to express immense gratitude to voluntary blood donors.

**Types of Blood Donations**

- Whole Blood Donation. Whole blood is the most flexible type of donation. ...
- Power Red Donation. During a Power Red donation, you give a concentrated dose of red cells, the part of your blood used every day for those needing transfusions as part of their care.
- Platelet Donation. ...
- Plasma Donation.

**Importance of Blood donation:**

Of the eight main blood types, people with Type O have the lowest risk for heart attacks and blood clots in the legs and lungs. This may be because people with other blood types have higher levels of certain clotting factors, which are proteins that cause blood to coagulate.

Drink plenty of fluids to replenish the volume lost during donation. Avoid lifting heavy weights with the donation arm or participating in strenuous physical activities or sports after donation to prevent bruising of the venipuncture site and dizziness.

Under the guidance of Dr. Madhuri Shelke (Principal, INER, Pune) conducted the seminar on World Blood Donor Day.

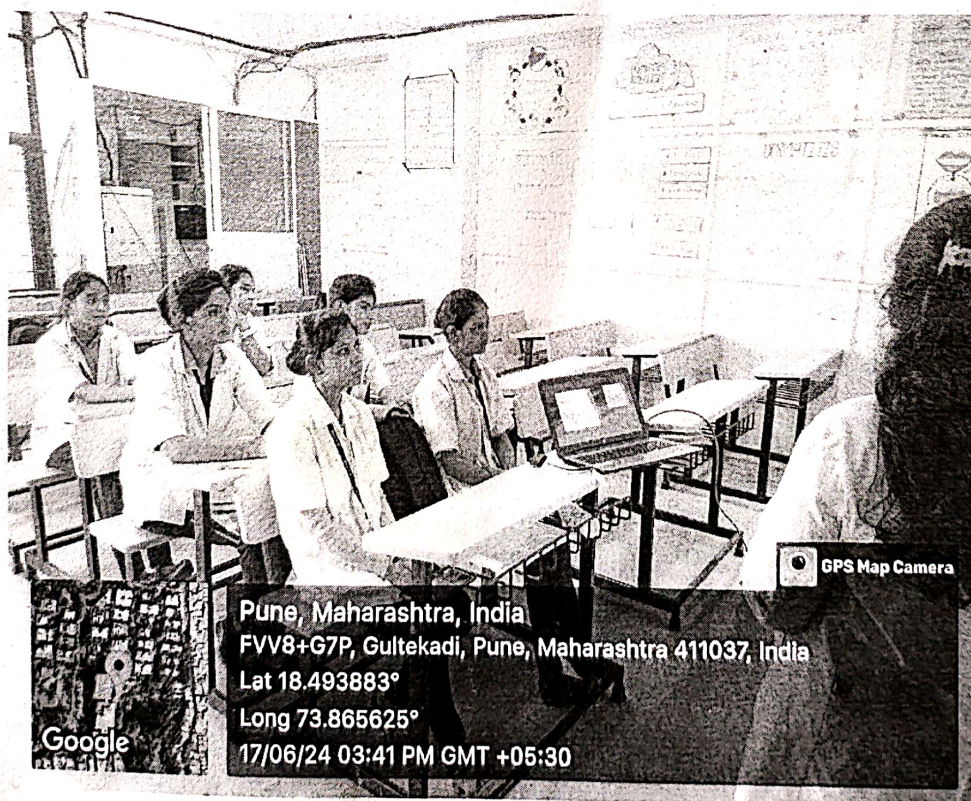

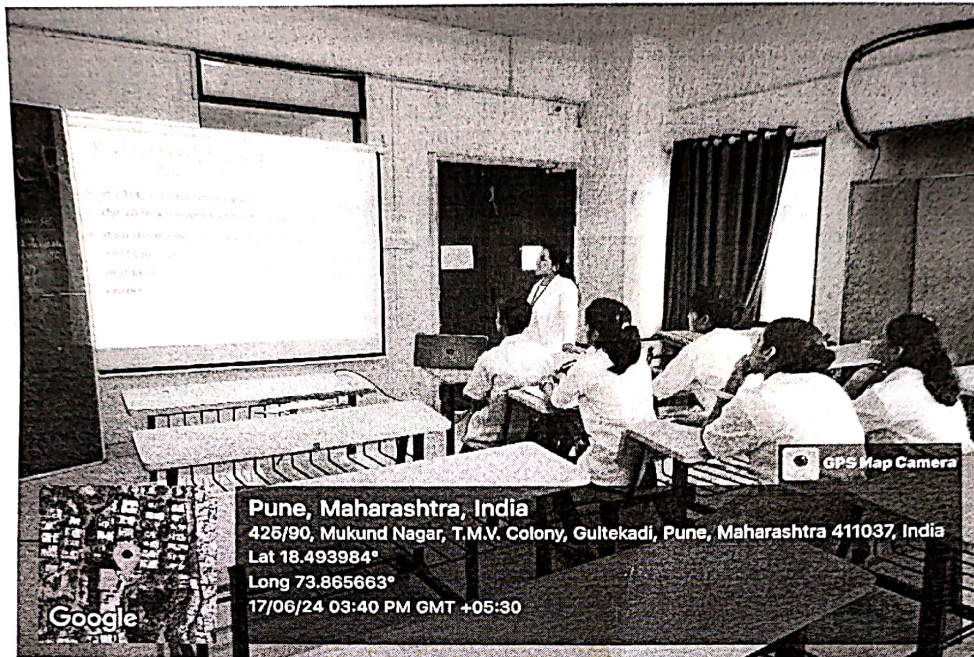

After the session, questions were asked to the students to assess the effectiveness of Seminar. The session was ended with vote of thanks by Ms. Radha Shinde.

**AUTISTIC  
PRIDE  
DAY JUNE 18**

**Name of the event:** Seminar, Poster Presentation & Health Education on Autistic Pride Day

**Date and time:** 18.06.2024 11:00 am -12:00pm

**Speaker:** Ms. Sujata Kanade & Ms. Manisha Vaidya

**Venue:** 4<sup>th</sup> yr B.sc. Nursing Classroom & at Kamala Neharu Hospital, Pune

**Participants:** 4<sup>th</sup> year B.Sc. Nursing students

**Organizers:** Institute of Nursing Education and Research, Tilak Maharashtra Vidyapeeth, Pune

**Theme:** “Taking the Mask Off,” encourages autistic individuals to embrace their authentic selves – their natural behaviors, preferences, and ways of interacting with the world.

**“Everyone has a mountain to climb, and autism has not been my mountain, it has been my opportunity for victory.” – Rachel Barcellona**

**Concept of Autism:** Autism spectrum disorder (ASD) is a neurological and developmental disorder that affects a person’s ability to interact, communicate, learn, and behave with others. While many of us confuse autism with an illness, it is just a reflection of the mind, which makes autistic people a little different from others. To raise awareness about the condition, Autistic Pride Day is observed on **June 18**.

The day serves as a platform to raise awareness about autism, promotes a more compassionate world for all, and highlight that individuals with autism are not diseased but possess unique strengths and perspectives.

## Significance

As the name signifies, Autistic Pride Day holds tremendous significance in educating the general public about the challenges faced by individuals with autism and fostering a better understanding of the disorder.

This day also advocates for equal opportunities for people with autism, ensuring that individuals with autism have access to the same rights and privileges as their neurotypical peers.

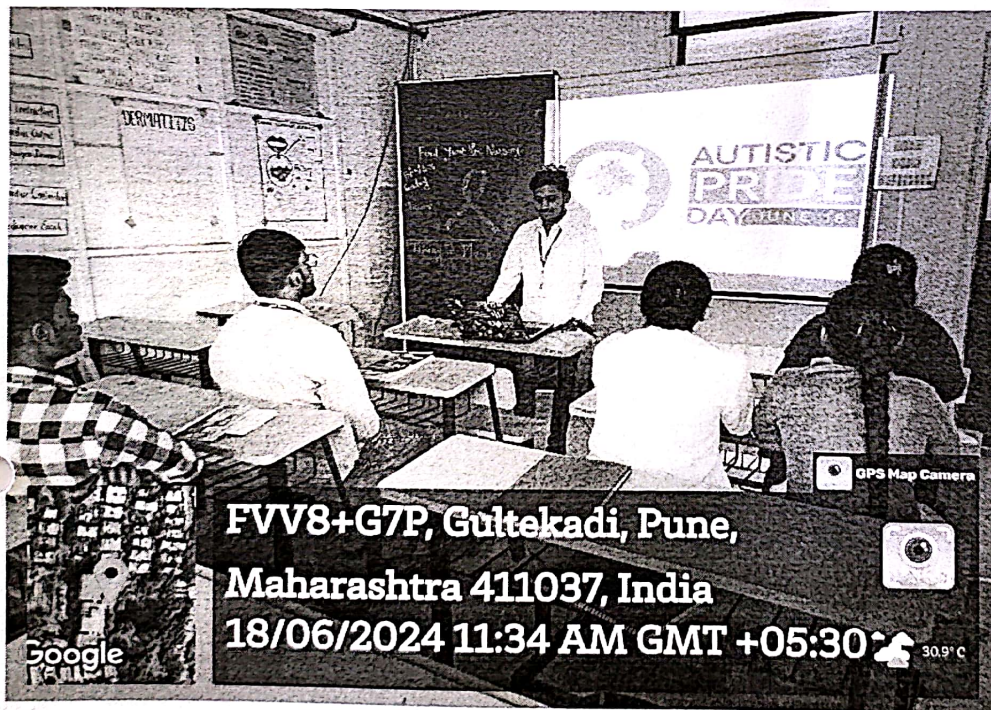

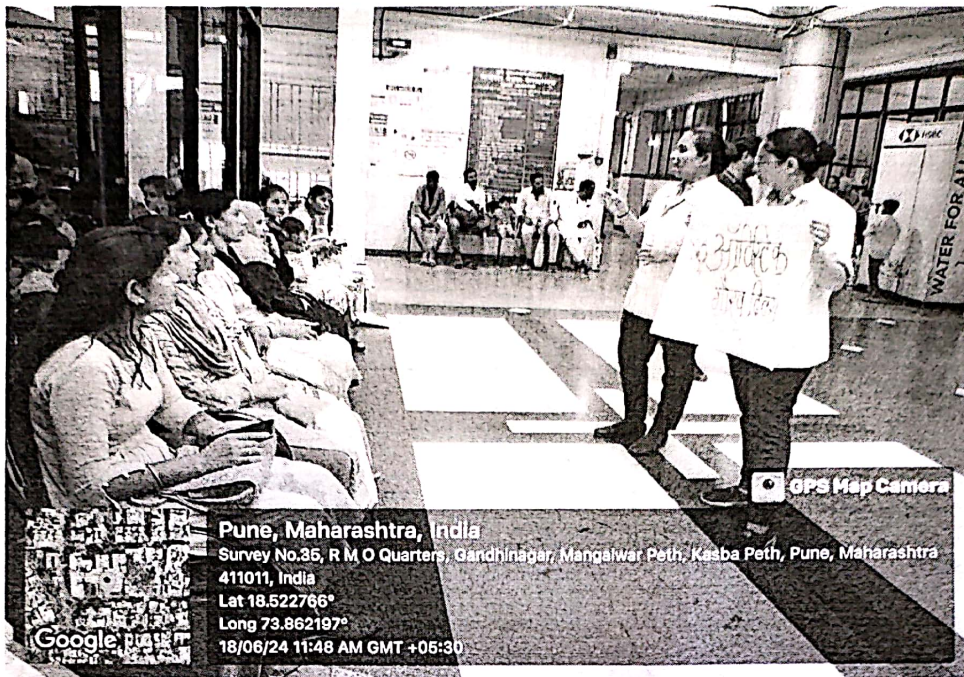

Autistic Pride Day also encourages the significance of creating an inclusive society where everyone is valued and included in all aspects of community life.

Under the guidance of Prof. Dr. Madhuri Shelke (Principal TMV, INER, Pune) this Seminar, Poster Presentation and health education was conducted. The creativity of the students were displayed with colorful posters and given health education OPD Patients.

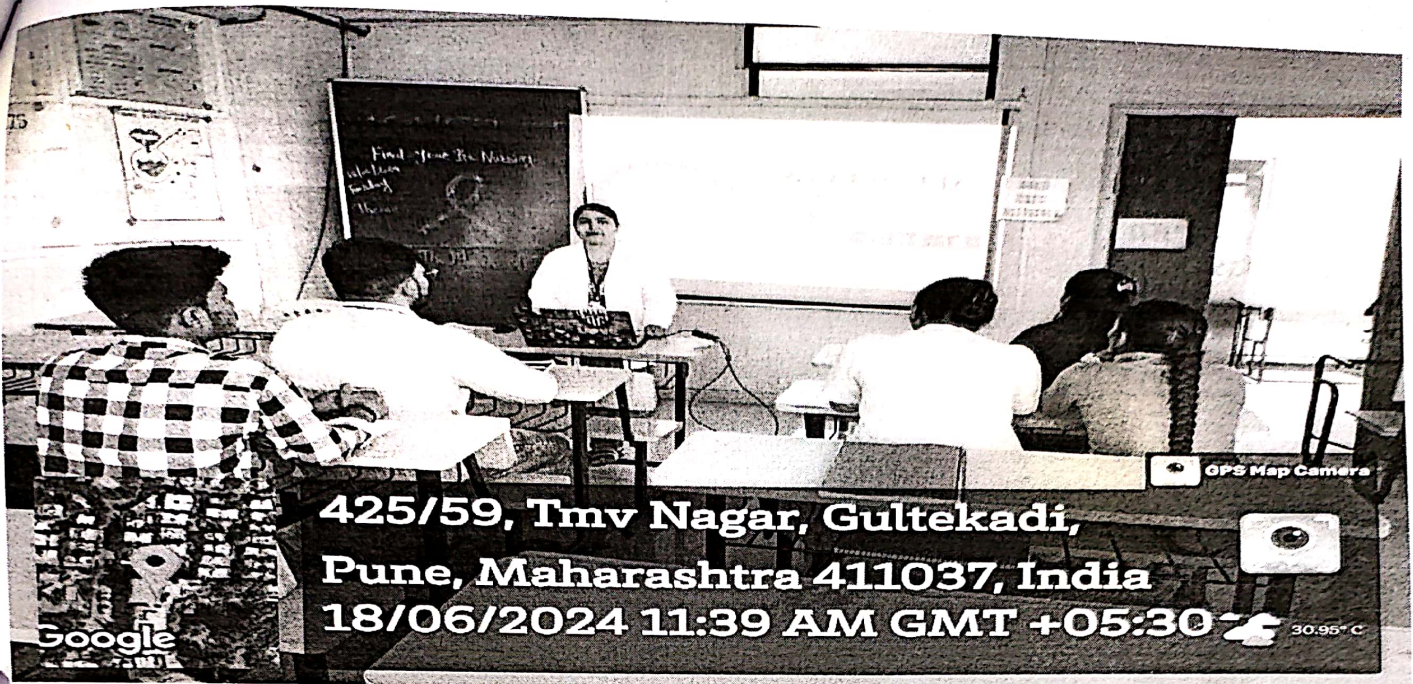

The session was very interactive some audience/people asked questions related to Autism, students are cleared their doubts.
